

TAKEBUL ISLAM

Full-Stack Web Developer

Nazirpur, Pirojpur, Bangladesh | +880 1799-439775 | takebulislam@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

CAREER OBJECTIVE

Full-Stack Web Developer with hands-on experience building and shipping complete web applications using React, Next.js, and Node.js. Comfortable across both frontend and backend, including implementing authentication and access-control logic. Enjoys turning ideas into working features and focuses on writing clean, scalable logic that makes a product feel modern and polished. Seeking an entry-level remote or hybrid role—full-time, internship, or freelance—to keep growing toward becoming a well-rounded full-stack developer.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React, Next.js, React Router, Tailwind CSS, HeroUI, DaisyUI, Lenis, GSAP, Framer Motion, Recharts

Backend: Node.js, Express.js, MongoDB Atlas, CRUD, REST APIs

Authentication & Security: JWT Authentication, Google OAuth, Better Auth, Stripe Integration

Developer Tools & Deployment: Git, GitHub, VS Code, npm, Prettier, ESLint, Vercel, Netlify, Render, Chrome DevTools, Figma-to-Code

AI-Assisted Workflow: Gemini, GitHub Copilot, Claude, ChatGPT

PROJECTS

StartupForge — Two-Sided Founder & Collaborator Marketplace

[Client](#) | [Server](#) | [Live Site](#)

Tech Stack: Next.js, React, Node.js, Express.js, MongoDB, Better Auth, Stripe, Framer Motion, Recharts, Tailwind CSS

- **Architected a responsive two-sided marketplace** connecting startup founders and collaborators, with dedicated role-based dashboards (Founder, Collaborator, Admin), real-time application tracking, and interactive Recharts analytics.
- **Engineered robust Role-Based Access Control (RBAC)** and token-verification middleware in Express.js, securing API endpoints and enforcing strict profile-completion rules before application submission.
- **Integrated Stripe subscription payments** with automated webhook handling to grant tiered plan limits, automated verified badges, and transactional notification workflows.
- **Built a centralized Admin Management Suite** with live platform telemetry, automated startup moderation workflows, and account moderation controls (ban/unban).

TutorBook — Verified On-Demand Tutor Booking Platform

[Client](#) | [Server](#) | [Live Site](#)

Tech Stack: Next.js, React, Node.js, Express.js, MongoDB, Better Auth, JWT/JWKS, Swiper, Tailwind CSS

- **Developed a full-stack tutor discovery and booking platform**, enabling students to browse verified educators, review credentials/hourly rates, and schedule live sessions with slot-conflict validation.
- **Implemented high-performance search and filtering** using MongoDB \$regex indexing and range operators (\$gte/\$lte) to query tutors across subjects, ratings, and date availability in real-time.
- **Secured authentication utilizing Better Auth** (Google OAuth & Credentials), generating stateless JWTs verified server-side through a remote JWKS keyset for secure, multi-device sessions.
- **Crafted an intuitive UI with Tailwind CSS, Swiper, and Framer Motion**, featuring persistent dark/light theme switching, responsive layouts, and authenticated password credential updates.

EDUCATION

Bachelor of Arts (Honours) in English

2025 – Present

Suhrawardy Government College, Pirojpur • 1st Year (Honours)

Alim — Higher Secondary / Intermediate Equivalent

2024

Sarsina Darussunnat Kamil Madrasah, Pirojpur • Bangladesh Madrasah Education Board • GPA: 4.71/5.00

CERTIFICATIONS & COURSEWORK

- Full-Stack Web Development — Programming Hero, Certificate of Completion with Excellence (Jan – Sep 2026)
- Completed all Programming Hero assignments with full marks.

ADDITIONAL INFORMATION

Languages Spoken: Bangla (Native), English (Professional Working Proficiency)
